

## O-H-E-C-K!

### **OBSERVATIONS** "What do you see?"

Please write your observations. Make at least 3 observations, be descriptive.

---

---

---

### **HYPOTHESIS** "What do you think?"

Please write a statement about your sample that you can test using an experiment

I hypothesize that...

---

---

### **EXPERIMENT** "How do I test my hypothesis?"

Please design a step-by-step experiment that will allow you to prove your hypothesis True or False.

First I will... weigh my sample

Second I will... add salt-water to my sample

Third I will... gather all the plastic

Fourth I will... count or weigh all of the plastic

Fifth I will... weigh the leftover sand

Lastly, I will... sort all of the plastic into similar groups

### **CONCLUSIONS** "What did you find?"

Please make a poster showing your results, use pictures and sentences.

### **KNOWLEDGE!** "What did you learn?"
